

THE WORLD IS GETTING MYOPIC

32% 

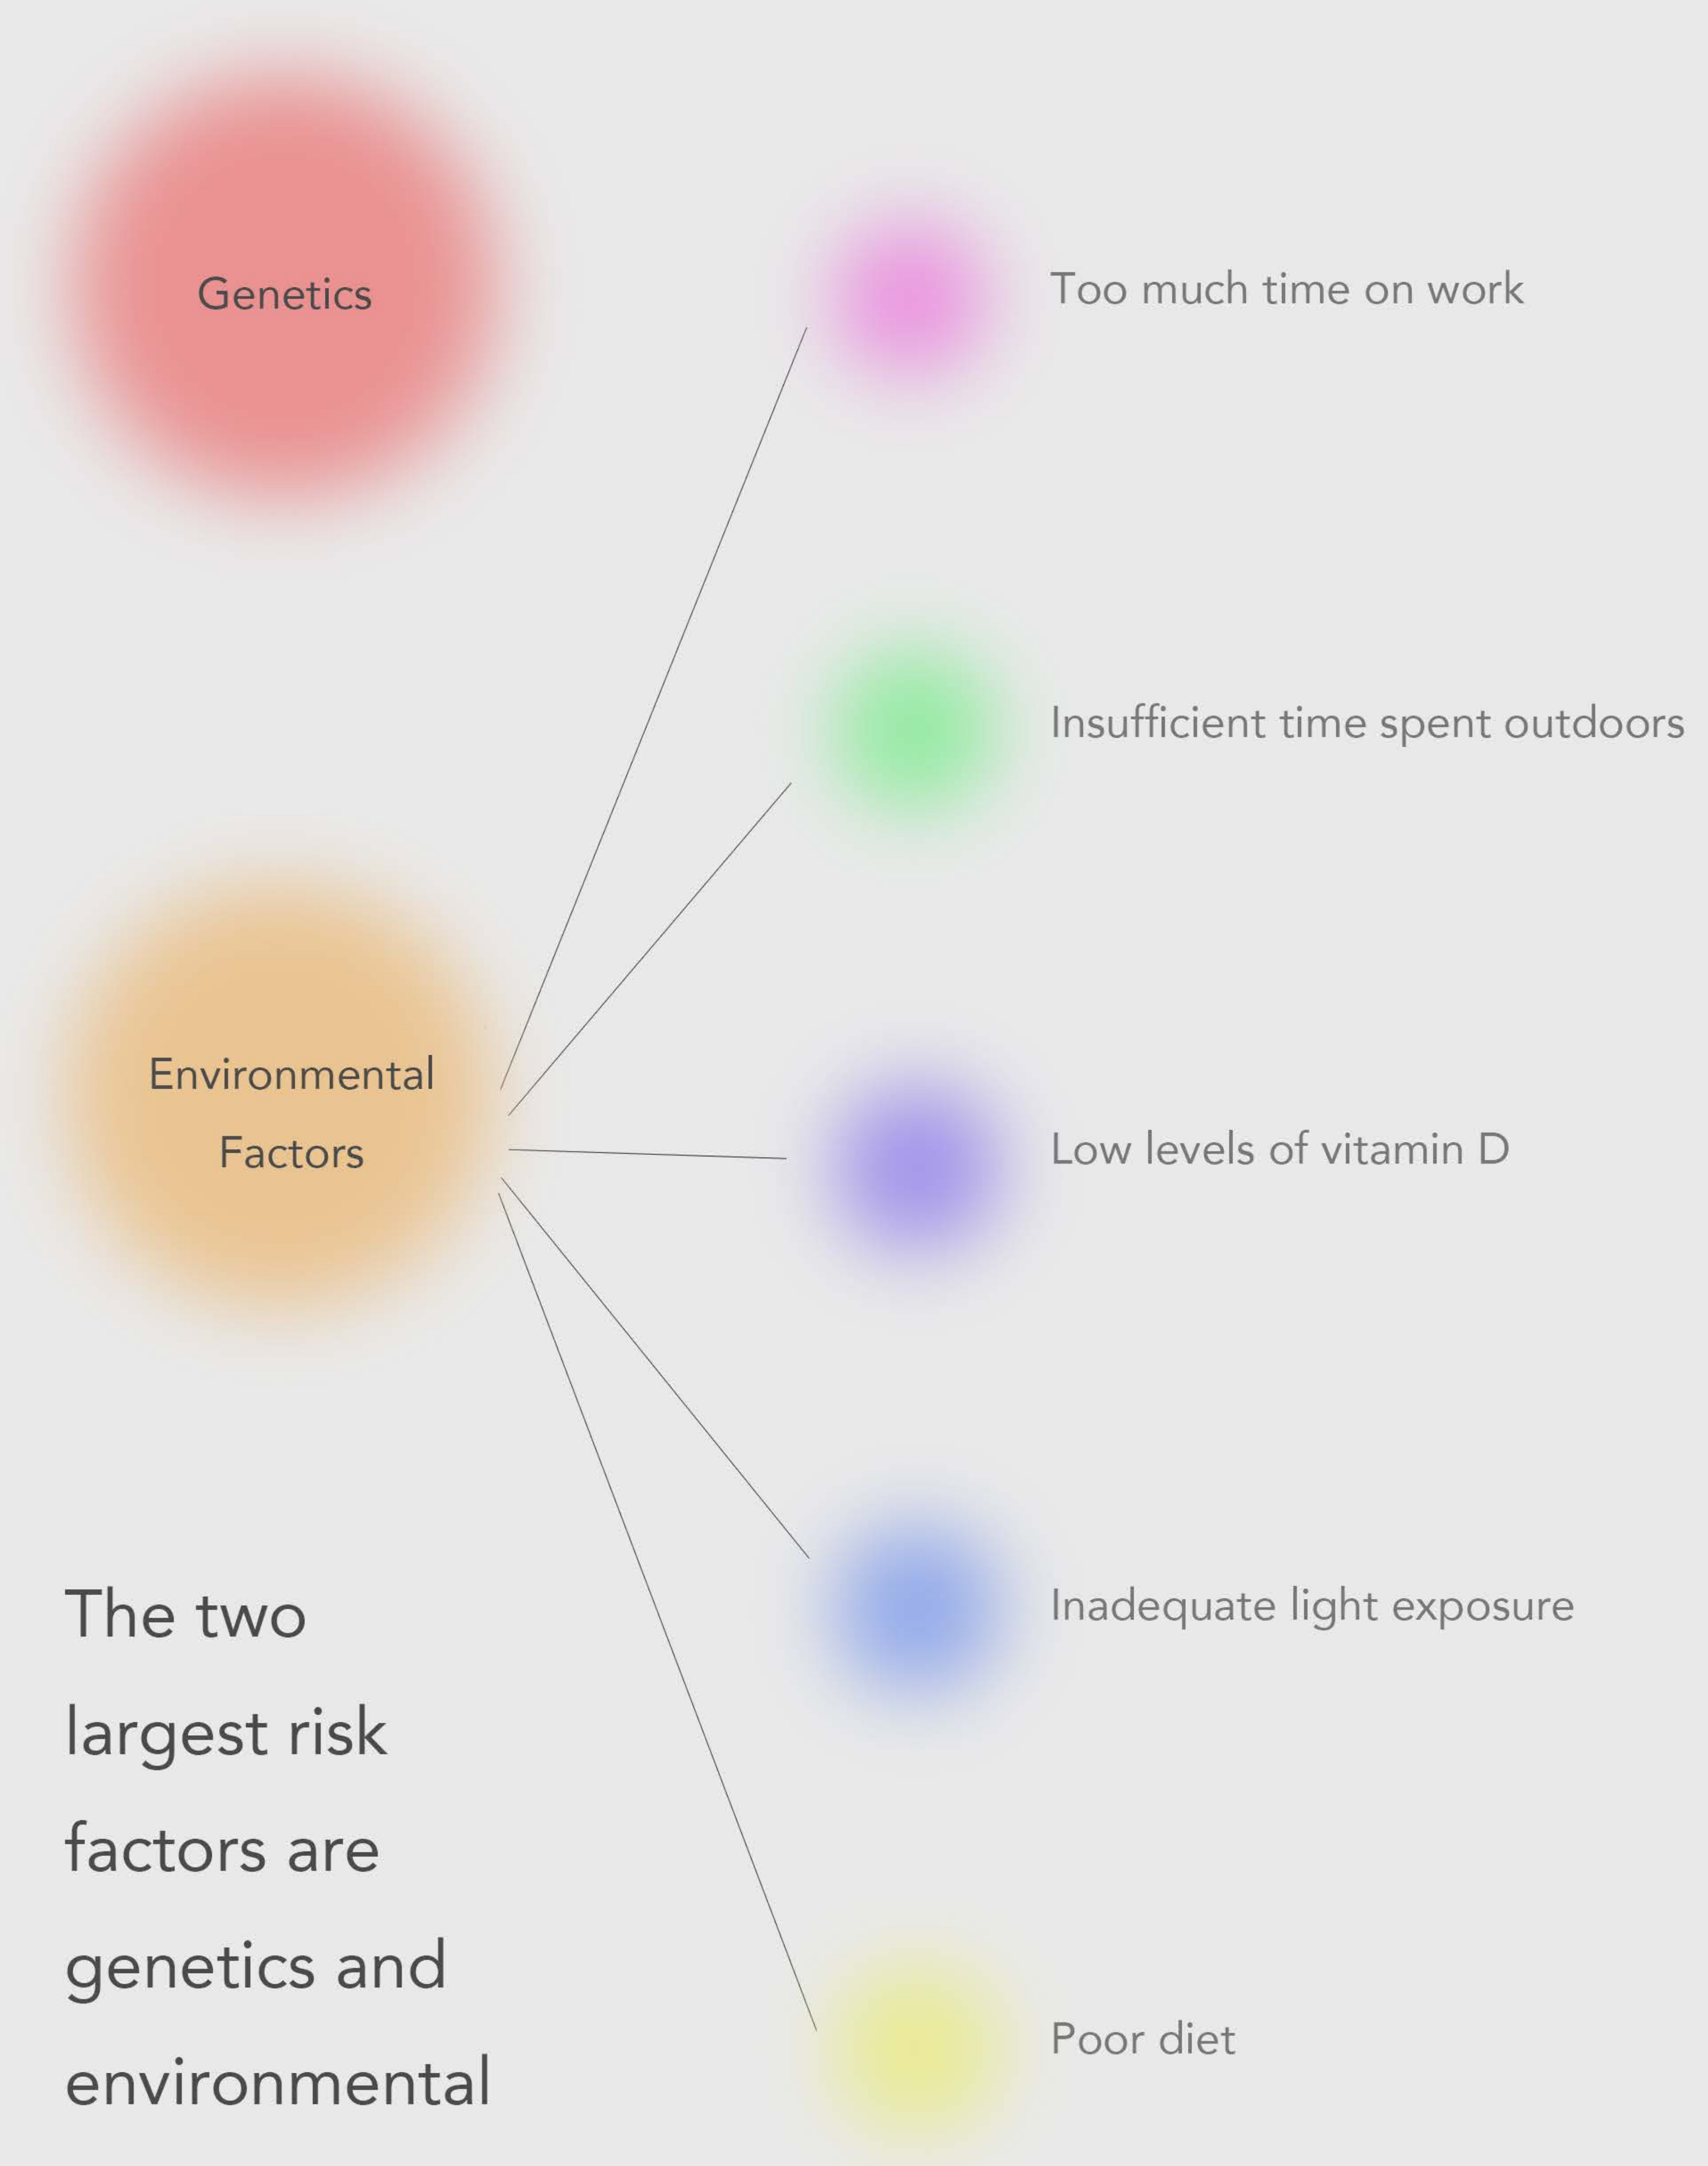

In 2019, more than 32 percent of the world’s population has myopia, or nearsightedness

78% 

The rest of the population may also risk myopia in future. By 2050, almost 60% of the global population will have some level of myopia.

WHY PEOPLE GET MYOPIA?

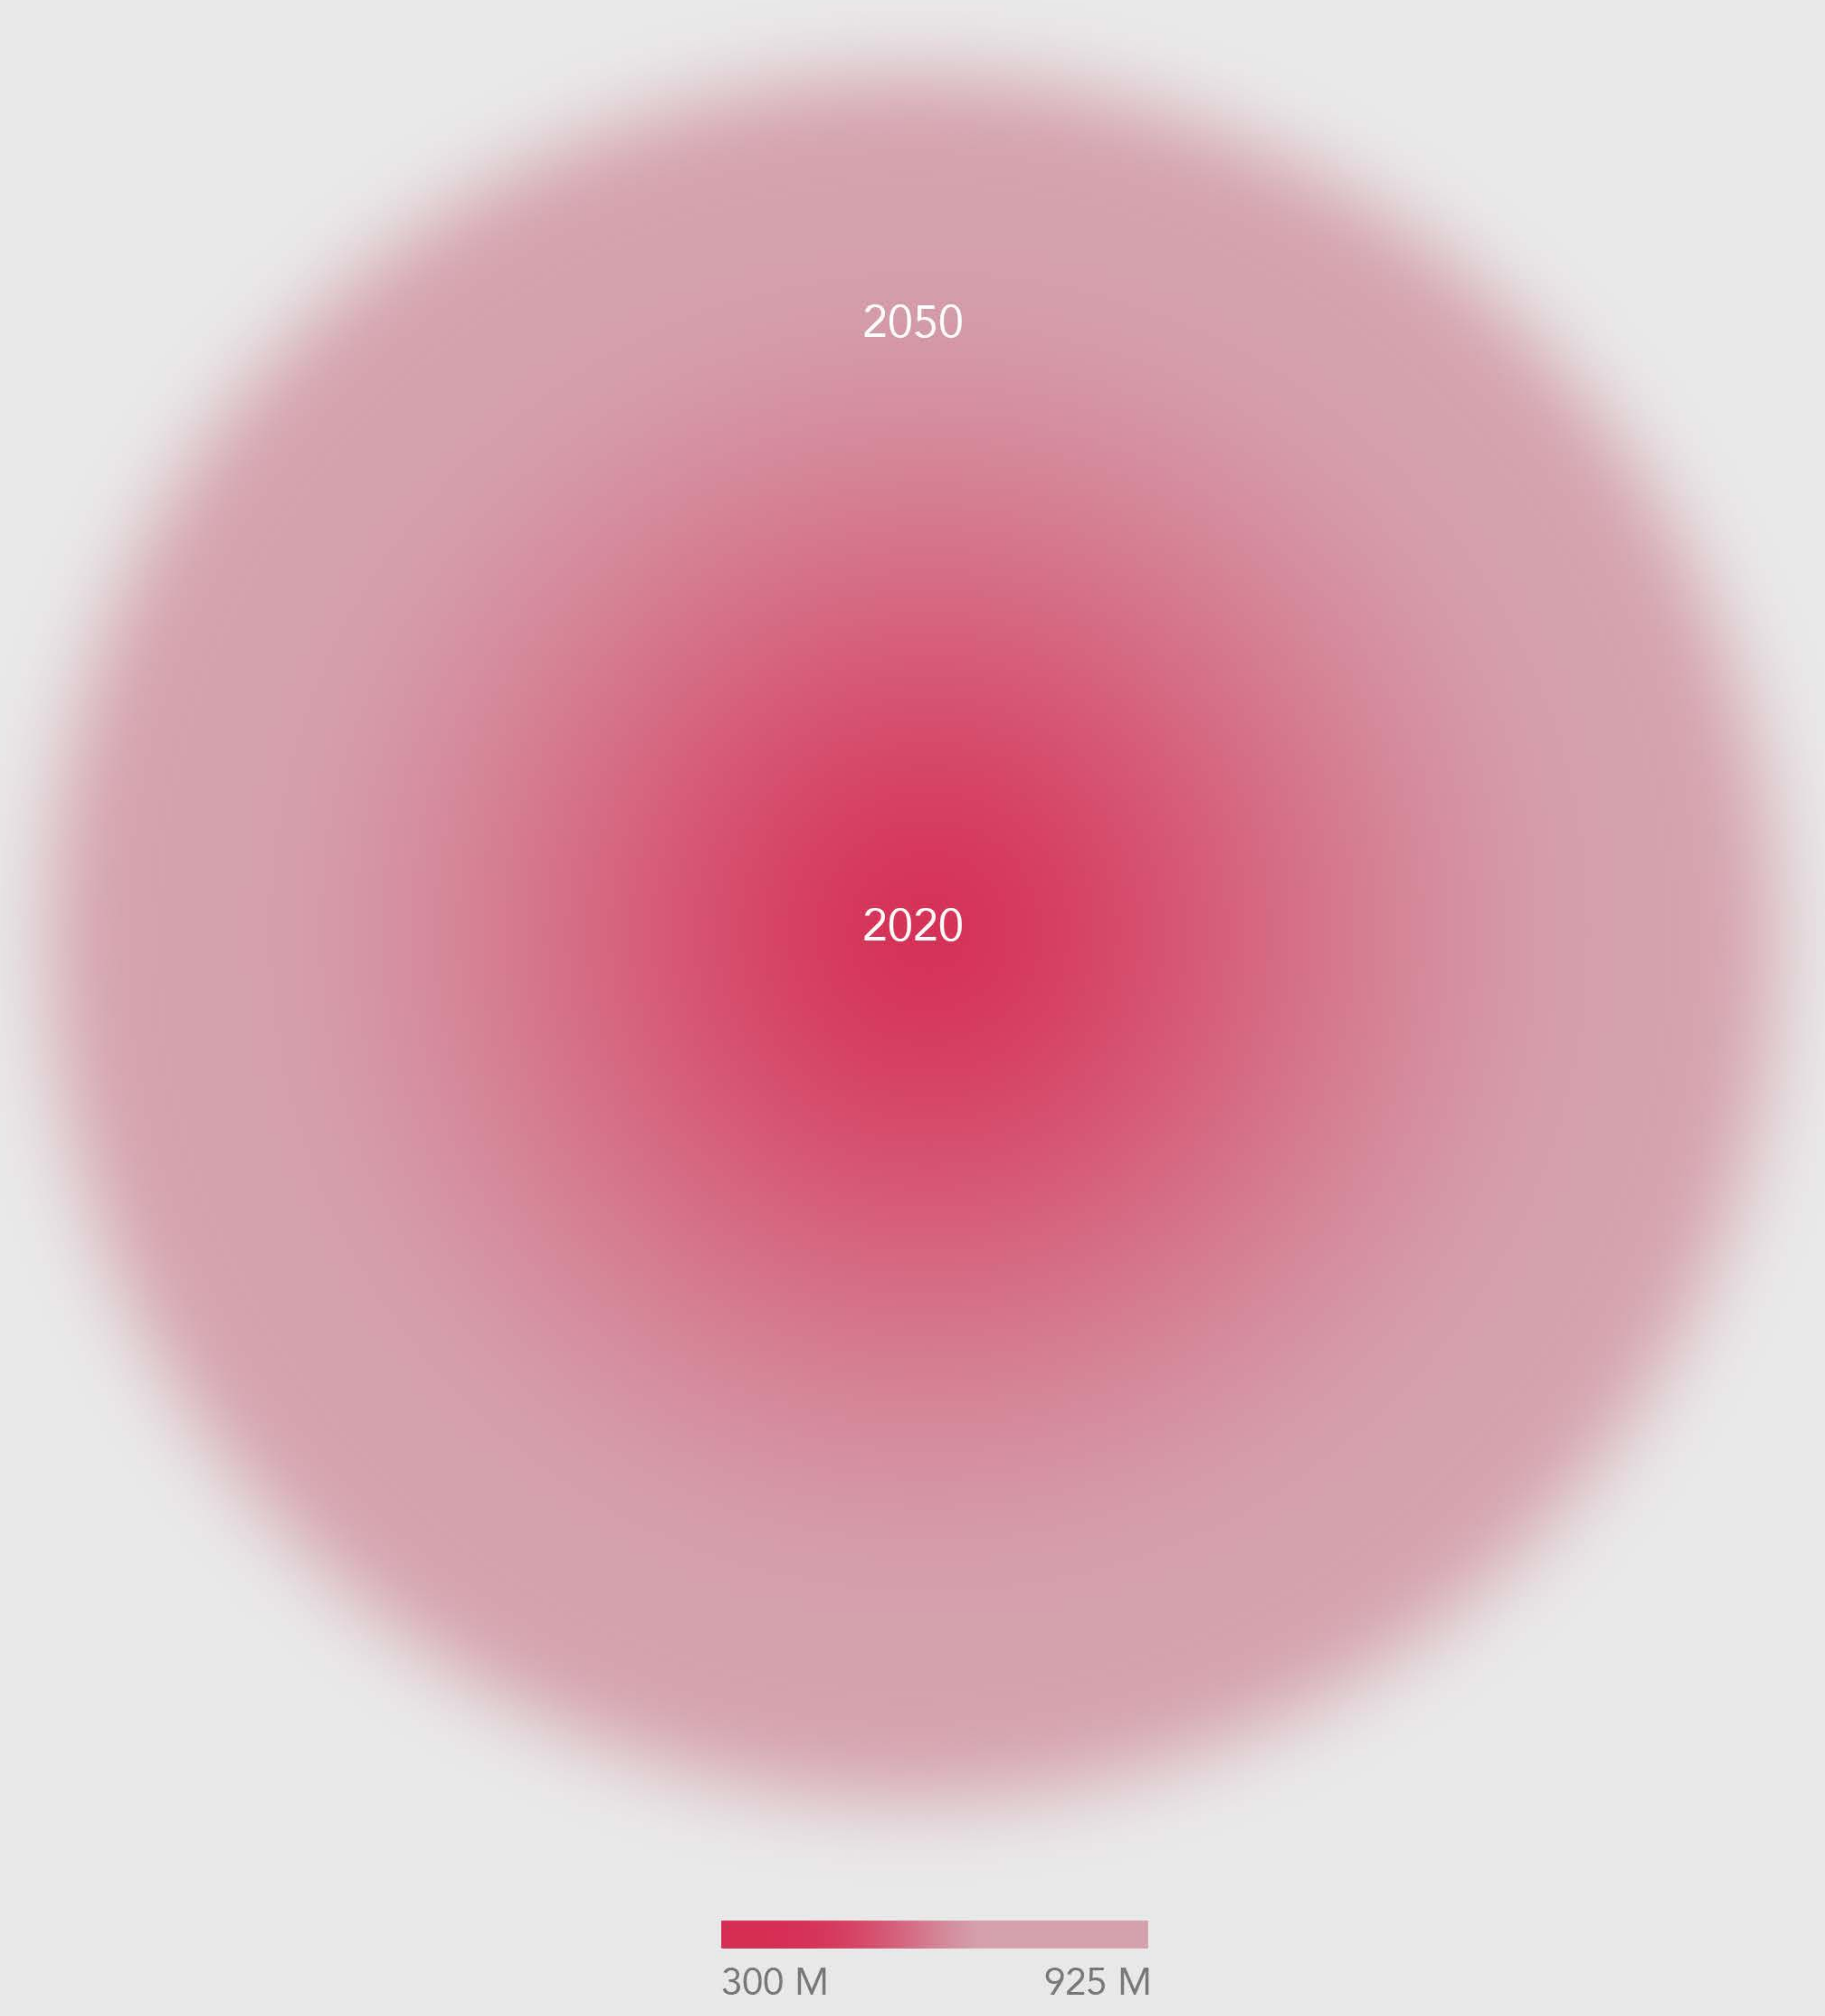

Myopia development & progression is multifactorial.
